YELLOW BROWN GIRL

December 1st, 1952

YELLOW BROWN GIRL, while not a true Yellow Violet as we have longed for, yet it comes the closest of any we have yet seen and to our knowledge is the only African Violet to date with Yellow in it at all. The back ground color of the bloom is white but as each crinkly cup shaped blossoms opens there is a distinct greenish yellow tinge to it which gradually mature. Sometimes, as many pastel colored African Violets do through the shipping of Yellow Brown Girl it will loose its' color, but that will come back as this is NOT a WHITE African Violet. No African Violet collection can claim all of the available colors until Yellow Brown Girl has become a cherished member. Approved by The National African Violet Society of America. None of our African Violets has been chemically or Sodium Selenate treated. Price \$1.50 each plus 50¢ for insured Parcel Post.
